

GEMINI® PRODUCT RANGE

THE NEW STANDARD FOR LAYING RAISED FLOORS

DAKOTA®

The new Gemini® product range

Gemini® is the new generation of adjustable pedestals, designed to combine superior adjustment precision with unprecedented installation effectiveness.

**ONLY TWO
MODELS**

height range
from 35 to 195 mm

Gemini® paving

Why choose **Gemini®**

Gemini® is the ideal solution for who are seeking a perfect balance between superior adjustment accuracy, optimised easy installation, and logistic efficiency

DOUBLE ADJUSTMENT

System with side lock ring and adjustment key

Gemini® decking

Smart height adjustment for quick and accurate floor laying

Our smart height adjustment system combines an ergonomic side lock ring and a central screw for perfect floor laying in two complementary steps.

First tool-free adjustment

A side lock ring helps adjust the height quickly before the laying process begins to reduce laying times and mistakes.

Adjustments to millimetre accuracy

When the floor is finally laid, differences in level can be rectified using the adjustment key, without having to remove the slabs.

Boost the value of your raised floors

HEIGHTS FROM 35 TO 195 MM

Only 2 models cover a height range from 35 mm to 195 mm, with extensions up to 1 m.

OPTIMISED SQUARE BASE

Optimised installation flush to the walls and corners eliminates the need to cut the base. Equipped with a water drainage system.

SELF-LEVELLING SLOPE GRADIENTS UP TO 5%

The self-leveling head contributes to making up for screed slopes up to 5% to achieve perfectly planar surfaces.

VERSATILE APPLICATION

It is compatible with paving floors and decking structures.

STRONG AND RELIABLE

It is built to offer stability and durability over time, following on the footstep of the Arkimedē® and Hercules® ranges.
